## Professional Summary

An experienced Software professional having more than 2+ years of IT experience with 1.5+ years of experience in RPA development using UiPath (UiPath Studio, Robots, Browsers, Orchestrator, Activities Panel, RE Framework, Selectors, Screen Scraping, Asset, Queues).

## EXECUTIVE SUMMARY

- Overall, 2+ years of IT experience with 1.5+ years of experience as RPA Developer
- Experienced in building RPA (Robotics Process Automation) solutions using **UiPath**.
- Implemented end to end automation solutions as per requirements which involves Analysis, designing, development, testing, deployment of automation.
- Developed robotic bots using **RE framework**.
- Experienced in Determining **RPA best practices** and suggests how to improve current quality processes, standards, and practices.
- Used **UiPath Orchestrator** for deployment, monitoring and managing Robots.
- Worked on **Assets** and **Queues** in UiPath Orchestrator.
- Experience in staging and deploying the automation solution into test and live environments.
- Hands on Experience in creating **PDD (Process Definition Document)**.
- Good understanding of **Software Development Life Cycle (SDLC)**.
- Familiar with the use of **GitHub**.
- Knowledge of building Robotic Automation Process and Business Objects for various Business systems.
- Experience in working on **Dispatcher** and **Performer** Robot.
- Experience in **Email** automation, **pdf** automation, **word** automation, **Web** automation etc.
- Knowledge of troubleshooting and debugging the automation for bug fixes.
- Strong ability to convert business logic/requirement to automation.
- Used tools like **JIRA** and **Service Now** for defect tracking and for interaction with Developers for resolution of issue.
- Have knowledge of **HTML**, **CSS** and **JavaScript**.
- Have knowledge of **Azure** and **AWS** cloud services.
- Good understanding in **JAVA**, **C**, **C++**, **MYSQL**, **OOPS** Concept, **Array** and **String Methods**.
- Strong analytical, **Problem solving** and **programming skills**.
- Good communication, collaboration with proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.

## EXPERIENCE DETAILS

Working in **Accenture, Pune** as **Application Development Analyst** from July 2021- till date

### Hands on experience on TECHNICAL SKILLS

#### Area of Interest

RPA Development, UiPath Automation.

#### Skill set

RPA, UiPath, UiPath Studio, UiPath Orchestrator, UiPath Robot,  
UiPath RE Framework, OCR, VB Script, MySQL, GitHub, JAVA, C, C++, HTML, CSS.

## PROJECT EXPERIENCE

Project Name	HCMS (Identity Access Management)
Responsibilities/ Contribution	<ul style="list-style-type: none"><li>• Reviewing software requirements and test scenarios.</li><li>• Collaborate with clients to understand the requirements and provide a solution.</li><li>• Prepare UiPath Automated workflows.</li><li>• Designing automation processes as per the operational needs of an organization.</li><li>• Solve issues that arise in day-to-day running of RPA processes and provide timely support and solutions as required.</li><li>• Developing, Implementing automation workflows in UiPath.</li><li>• Troubleshooting, handling security issues and RPA development process.</li><li>• Execute and deploy the Workflows in UiPath Orchestrator.</li><li>• Deploying automation solutions based on appropriate UiPath features, duly configured.</li><li>• Prepare and present test reports.</li></ul>

## EDUCATION

Bachelor of Engineering in **Information Technology** from Savitribai Phule Pune University (2020).

### STRENGTHS:

- Creative, strong logical & analytical ability, Adaptability and Flexibility.
- Very good organizational skills.
- Like to get things done on time and never postpone them.

**Declaration:** I hereby declare that the information given above is true to the best of my knowledge.
