Application Development Analyst 🖉

Accenture

Full-time I Jul 2021 to Present (2 years 1 month)

Serving Notice Period

I will be responsible for designing, developing and implementing robotic process automation (RPA) solutions using UiPath platform. My primary focus will be on creating efficient and scalable automation workflows to streamline business processes and improve productivity. Collaborate with client to understand the requirements and provide a solution. Configure and maintain the UiPath infrastructure, including orchestrator, robots, and other components. Monitor and troubleshoot automation processes, identifying and resolving any issues or errors. Create and maintain technical documentation for developed automation solutions.
